

Hi

It will soon be sweaters and space heaters time – comforts that allow us to look forward to winter. These feelings are not shared by our four-legged friends who have to brave harsh winters on the streets, and older animals in shelters.

In collaboration with FIAPO, the Federation of Indian Animal Protection Organisations, we have a network of 20+ organisations that could benefit from your support, this winter.

Your support through your organisation's CSR or in a personal capacity will enable warm bedding, heaters, blankets/ wearables, meals and quality medical care.

[Donate Now](#)

We're facilitating a retail funding campaign through [Give.do](#) for Help In Suffering (HIS).

In 20 years, HIS has treated 1.2 lakh camels, dewormed 35,000, and supported thousands of camel-owning families. Your donation will help HIS continue providing medical care, sensitising owners, and educating children to instill compassion for animals.

100% of the funds raised go directly toward the projects.

Ecosystem Intel - via our Socials

India's dairy sector is vast and influential, but it has long relied on practices that cause animal suffering. As global standards shift, India must reimagine progress through animal welfare. This World Vegan Day, we invited Dairy Brands and authorities to discuss how compassion can become an operational standard, not an exception. Read more about it on our LinkedIn post.

This Children's Day, we celebrated the joy of being carefree—because, like children, animals too want to be loved, play, and be free! Watch our Instagram video of animals in their playful moments—it's sure to bring a smile to your face.

Updates from the Ground

A PhD in Animal Law? Yes!

IAF facilitated a scholarship from the Shirin Paul Foundation to the NALSAR University of Law for a PhD in Animal Law. Applicants are being shortlisted and will focus on research that drives meaningful change for farmed animals in India. Recommended research areas include:

- (a) Gaps in the Regulation of Piggeries and the Dairy Industry
- (b) Fish Welfare Policy Research
- (c) Humane Education and the Values of the National Education Policy (NEP)

Upcoming Events

Turn Annual Reports Into Fundraising Tools

FIAPO is hosting an in-person workshop in Mumbai to help NGOs build transparency and strengthen donor trust through compelling annual reports. [Register here.](#)

3. Program Manager, Fish Welfare Initiative. Apply [here](#)
4. Program Associate, Fish Welfare Initiative. Apply [here](#)

India Animal Fund (IAF) drives the next frontier of social justice — ending animal suffering through scalable, evidence-based interventions.

Working with implementation partners across India, we enable CSR-aligned projects across Education, Health & Nutrition, and Capacity Building — sensitising children, addressing nutrition gaps, and upskilling farmers and enforcement officials.

To explore how our work can align with your giving priorities, please reach out to our CEO, Rekha Ragunathan, at rekha@indiaanimalfund.org
